C2-24

With differential driving method, this AGV could go forward,backward and make spin turn. The load capacity is up to 2,000 KG.

Navigation Type	QR code navigation/SLAM navigation
Base dimensions	L1380xW1060xH300 (mm)
Run direction	Forward, backward and rotation
Load capacity	1500KG / 200kG
Travel speed	0~ 60m/min
Lift height	50mm
Navigation accuracy	±5mm(QR code navigation); ±10(SLAM navigation)
Stopping accuracy	±5mm(QR code navigation); ±10(SLAM navigation)
Driving method	Differential drive
Battery charging method	Bumping into contact charging
Battery type	Lithium battery
Safety detecting range Safety circuit	≤3m(adjustable) safety laser scanner+anti-collision bumper
Case
